PROFESSIONAL SUMMARY

Information Technology Engineering student at Savitribai Phule Pune University with Full Stack Developer internship experience in React.js, Node.js, Express.js and MongoDB, and practical exposure to Python, AI/ML, IoT and Robotics. Built web platforms such as CivicWatch and Local Job Connect, an ML-based crop advisory system and Arduino/ESP-based hardware prototypes. Strong foundation in Data Structures, OOP and technical problem-solving, with a focus on software engineering and building useful technology solutions.

TECHNICAL SKILLS

Programming: C, Java, Python, JavaScript (ES6+)
Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap
Backend: Node.js, Express.js, PHP
Database: MongoDB, Mongoose, MySQL, Firebase Firestore
API: REST APIs, Fetch API, Axios
Authentication: JWT, bcrypt.js
AI / ML: Python, Machine Learning (applied project), Data Analysis
IoT & Embedded: Arduino, ESP8266, ESP32, ESP32-CAM, Sensors, Robotics Fundamentals
Mobile: Android Basics
Tools: Git, GitHub, VS Code
Core CS: Data Structures & Algorithms, OOP, Problem Solving
Concepts: CRUD Operations, Responsive Design, API Integration, Client-Server Architecture, UI/UX Principles

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern October 2026 – November 2026
Cognetix Global Technology LLP | Remote

- Gained hands-on experience building responsive, user-friendly web applications through practical, project-based assignments.
- Built interactive frontend interfaces using HTML5, CSS3, JavaScript (ES6+) and React.js.
- Practiced backend development with Node.js and Express.js, including REST API development and server-side integration.
- Worked with MongoDB and Mongoose for database management and data handling.
- Practiced authentication, authorization, CRUD operations, form validation and error handling.
- Used Git and GitHub for source-code management and version control.
- Strengthened debugging, problem-solving and full-stack development skills through practical projects.

Selected Projects – Full Stack Development Internship

Guided, project-based internship assignments; not all were independently built or deployed.

- **Weather App** – Developed a weather application using HTML, CSS and JavaScript with weather API integration; implemented city search and weather information display.
- **Expense Tracker** – Practiced income and expense management and transaction operations using browser LocalStorage; implemented expense tracking functionality.
- **Blog Management System (Chronicle)** – Worked on a blog platform involving user authentication and article management.
- **Job Portal System (CareerConnect)** – Worked on a job portal interface with candidate and employer registration and job discovery.
- **Online Food Ordering App (QuickBite)** – Worked on a food ordering interface with menu categories, food search and browsing functionality.

PROJECTS

Web, Software & AI/ML Projects

CivicWatch – Smart Civic Issue Reporting Platform *HTML, CSS, JavaScript, Firebase, Firestore*

- Developed a web-based civic issue reporting platform with status tracking and ward-level monitoring.

Local Job Connect *PHP, MySQL*

- Developed a location-based job portal with job posting, listing, search and user management.

Crop Yield Prediction & Agricultural Advisory System *Python, Machine Learning*

- Developed a system for crop prediction, disease-risk assessment, data analysis and agricultural recommendations.

Women Safety Android App *Android*

- Developed an Android safety app with SOS, live location tracking, emergency alerts and trusted-contact communication.

Rajnandini Restaurant Website *HTML, CSS, JavaScript*

- Developed a responsive restaurant website with menu, gallery, reviews, reservations and contact features.

Hardware & IoT Projects

- **ESP8266 Smart Attendance System** – Developed a Wi-Fi-based attendance system using ESP8266 with real-time data logging.
- **Face Recognition Door Lock** – Developed a prototype using ESP32-CAM and Python for facial-recognition-based access control.
- **ESP32 Drone (In Progress)** – Developing an ESP32-based drone involving embedded systems, wireless communication and motor control.
- **Line Follower Robot** – Built an autonomous robot using Arduino and 5-channel IR sensors for line detection and navigation.
- **Object Follower Robot** – Developed an Arduino-based robot using an HC-SR04 ultrasonic sensor for object detection and following.
- **Automatic Irrigation System** – Built an automated irrigation system using Arduino, soil moisture sensor, relay and water pump.
- **Automatic Gate Opening System** – Developed an automatic gate using Arduino, IR/ultrasonic sensor and servo motor.
- **Automatic Hand Sanitizer** – Built an automatic sanitizer dispenser using Arduino, IR sensor and motor/pump.

Additional Mini Projects

- **Python:** Space Invaders (Pygame), Snake Game, Tic-Tac-Toe with computer opponent, Word Guess, QR Code Generator. **IoT:** Live Notepad (ESP8266-based real-time remote notepad).

EDUCATION

Bachelor of Engineering (Information Technology) 2024 – Present
Savitribai Phule Pune University

Higher Secondary Certificate (HSC) 2024
Alphores Swarnleela International School, Wani

Secondary School Certificate (SSC) 2022
Sushganga Public School, Wani

CERTIFICATIONS

- **AI & Data Structures:** TCS iON Career Edge – AI Foundation Course; NPTEL – Data Structures & Algorithms; Udemy – ChatGPT & AI Tools
- **Industry Programs:** Deloitte Certification Program; Zensar Technical Skill Development
- **Robotics & Mobile:** Robotics Industrial Training; Robotics Internship Certification; Android Bootcamp
- **Internship Offers Received:** 3Skill; Webstack Academy; Agratas Edutech

HACKATHONS AND ACHIEVEMENTS

- **Global Fintech Fest 2026** – Idea Submission Shortlist
- **Adobe India Hackathon** – Round 1
- **QuesTech 2026** – The Ultimate Tech Challenge
- **Vortexa 2.0 Hackathon** – DY Patil
- **Protocol-Z** – Idea-thon
- **NexBuild Hack 2026** – Participation
- **Also participated in:** Cyberthon Hackathon; BackForge; Buildathon Workshop; Idea-thon and many more technical events

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- **Coordinator Member and Logistic Head** – SAIT(Student Association Of Information Technology)
- **Campus Mantri** – Geeks for Geeks
- **Event Anchor** – College Programs
- **Contributor** – IT Department Magazine
- **Memberships & Volunteering:** Green Club Volunteer; Innovators Hackathon Volunteer; Innovation Club Participant; Social Work Certification
- **Interests:** Sketching & Painting; Poetry Writing
